

# MICROSOFT DYNAMICS 365 FOR FINANCE AND OPERATIONS

## RAPID IMPLEMENTATION

**Armanino's Rapid Implementation for Microsoft Dynamics 365 for Finance and Operations** gives you the ability to launch Tier 1 ERP software at a price you can afford in just two to four months.

Traditionally, only large enterprise organizations have had access to robust ERP options, while pre-revenue and midsize companies have had to make do with limited-functionality systems that couldn't support rapid growth. We've used our extensive Dynamics 365 implementation experience to identify the top configuration options and create these affordable, pre-built Dynamics 365 for Finance and Operations packages.

### WITH A RAPID IMPLEMENTATION SOLUTION, YOU GET:

- Sophisticated ERP software that supports current needs and future growth
- A turnkey implementation that drastically reduces the complexity and pain associated with change management
- Quick time-to-value/ROI
- Predictable investment

### WHAT TO EXPECT

You get an ERP with the functionality you need now, and the ability to add tools or modules that support more sophisticated and complex operations as your organization grows. And, you minimize the disruption to your day-to-day business during implementation.

### ABOUT ARMANINO

Armanino is a Microsoft Inner Circle Partner and part of their Partner Advisory Council for Dynamics 365. We're also one of the largest Gold Certified Microsoft Dynamics 365 Finance and Operations partners in the nation. We specialize in the implementation and development of ERP solutions for technology, life sciences and professional services firms, and we've implemented Dynamics 365 for hundreds of clients. By partnering with us, you can expect:

- Expertise in implementing best practices and templated deployments
- Continuing Dynamics user education programs
- Ability to provide resources for every aspect of your business (Tax, Audit and Consulting)
- Cutting-edge industry solutions, including a commitment to R&D and IP development
- Award-winning service and proven success
