Today's Topics

Discover what's in store for Microsoft GP, options to augment your existing system, and what steps to take when considering moving to a cloud solution.

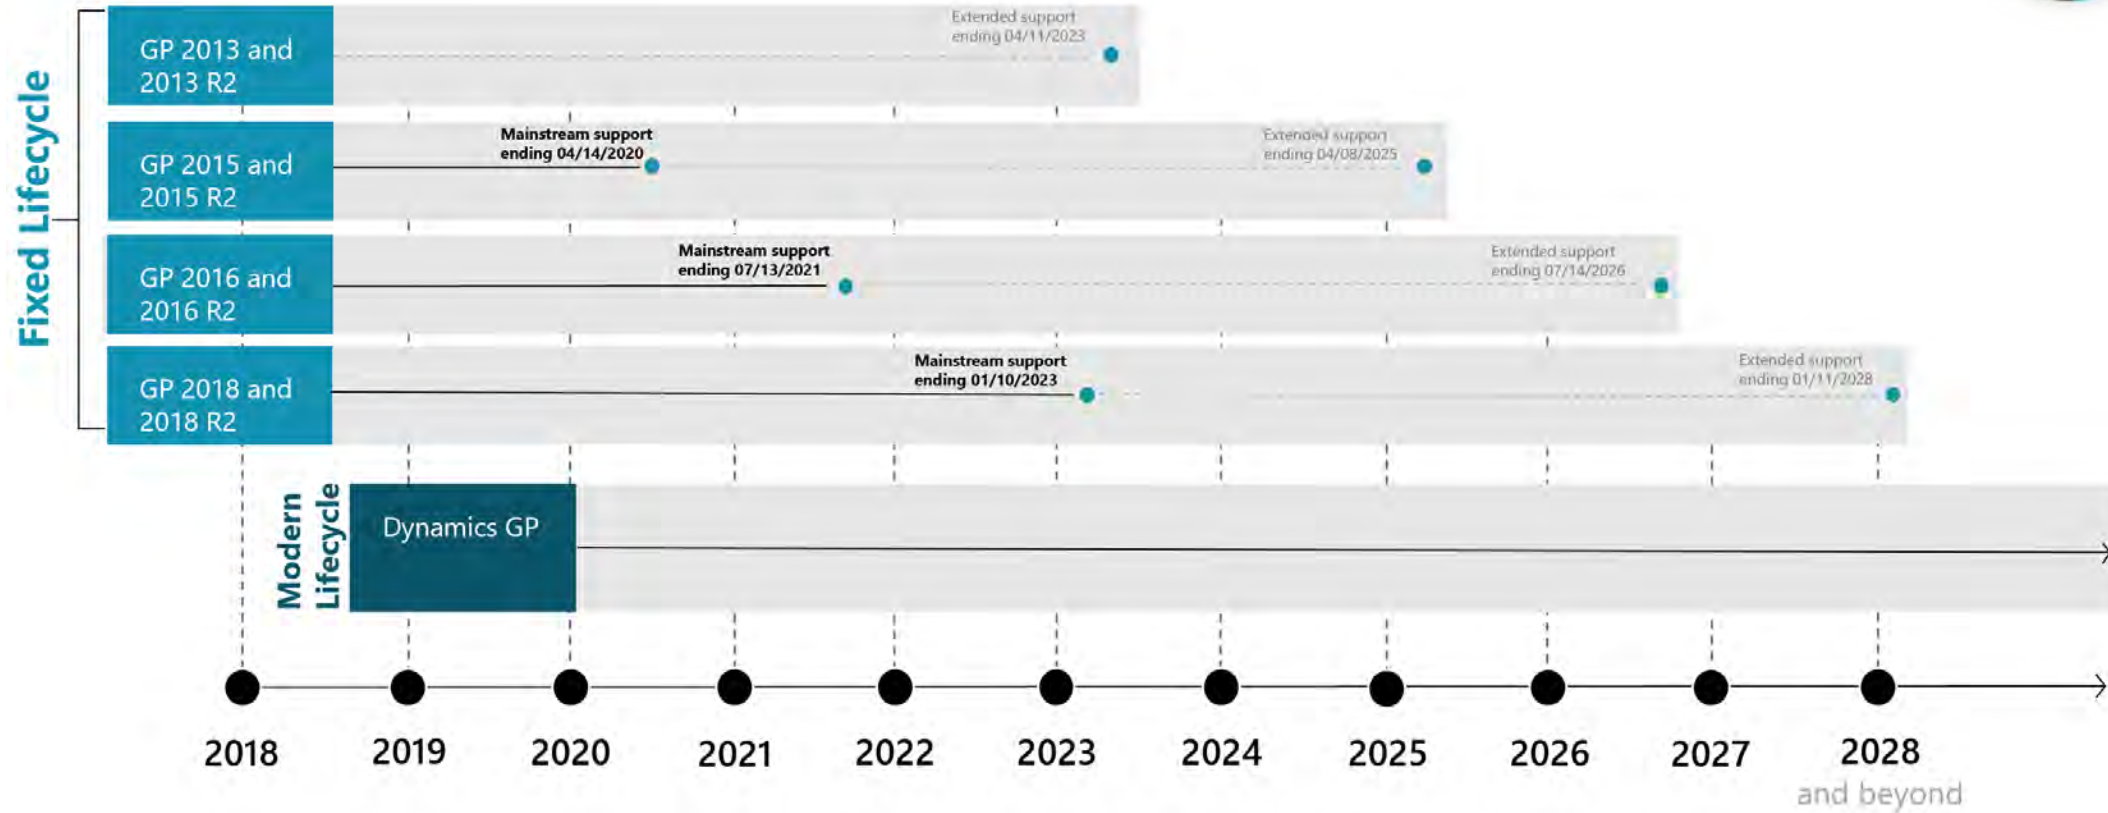

- Roadmap
- GP New Functions & Updates
- Cloud Integrations
- Moving to the Cloud

WHAT'S NEXT

Roadmap for Dynamics GP

LIFECYCLE

Installing any compatible Dynamics GP tax release or hotfix on Dynamics GP 2018 or Dynamics GP 2018 R2 will bring you to version 18.5 or later, which enacts the Modern Lifecycle Policy. There are no tax releases or hotfixes available for Dynamics GP 2018 or Dynamics GP 2018 R2 that would allow you to stay on the fixed lifecycle.

What is Mainstream & Extended Support?

- Mainstream support includes ***tax and year-end updates***, security updates and non-security hotfixes.
 - During Mainstream Support, Microsoft provides new releases, updates, services packs, builds, fixes, and patches in order to enhance a product's security and reliability, close vulnerabilities, and fix problems.
- Extended support includes ***only security updates***.
 - During Extended Support, Microsoft continues to provide security and reliability updates, and bug fixes, but non-security updates are not provided without a paid support agreement. During Extended Support, Microsoft does not accept requests for new features or product design changes, or honor warranty claims. Online self-help via Microsoft's knowledge base is available for at least 12 months after Extended Support has ended for a product.

VERSIONS

Fixed Lifecycle

The following older versions of Dynamics GP are governed by the Fixed Lifecycle Policy

IF YOUR DYNAMICS GP SOLUTION IS GOVERNED BY FIXED LIFECYCLE

Product	Mainstream Support	Extended Support	Lifecycle Definition
Dynamics GP 2013 and GP 2013 R2	Ended April 4, 2018	Ends April 11, 2023	Dynamics GP 2013/Dynamics GP 2013 R2
Dynamics GP 2015 and GP 2015 R2	Ended April 14, 2020	Ends April 14, 2025	Dynamics GP 2015/Dynamics GP 2015 R2
Dynamics GP 2016 and GP 2016 R2	Mainstream support ended July 13, 2021	Ends July 14, 2026	Dynamics GP 2016/Dynamics GP 2016 R2
Dynamics GP 2018 and 2018 R2	Mainstream support ended January 10, 2023	Ends January 11, 2028	Dynamics GP 2018/Dynamics GP 2018 R2

Upgrade Schedule for Release & Support

Year	New Features and Bug Fixes	Tax Updates & Bug Fixes	Year End Updates	Staying Current
2022	October	June	November/December	Must be on one of the 2022 releases.
2023	October	June	November/December	Must be on one of the 2023 releases.
2024	October	June	November/December	Must be on one of the 2024 releases.

Moving to the Cloud

Business Change Drivers

Why Are More and More On-premises Users Moving to Cloud Solutions

- You implemented 10+ years ago and your business looks different
- Disruption such as pandemic
- Newer (younger) workforce
- Technology has evolved
- Server maintenance and security
- **Cutting Edge - Copilot!**
 - Nanoleaf Product Example

COMPARISON

Dynamics GP and D365 BC

Comparison	Dynamics GP	D365 for Business Central
License Cost	Perpetual License with annual Enhancement Plan Plus hardware and/or hosting costs	\$70/user/Mo. Essential \$100/user/Mo. Premium <i>GP Migrations – 40% Discount through 12/31/24</i>
Upgrades / Updates	Requires Upgrade to current version; then service pack updates	SaaS - Automated updates so always on current version
General Ledger	Segmented Chart of Accounts	Chart of Account Dimensions
Multi-Entity	Yes, Separate Databases	Binary Stream Multi-Entity Management or Separate Databases
Financial Reporting	Management Reporter	Account Schedules Or Solver
MICR Check Printing	Requires ISV	Yes – No ISV Required
BI Capabilities	Some PowerBI integration; can leverage analysis cubes to work with OLAP tools; custom integration with Tableau	Strong integrations with PowerBI and Power Platform
AP Automation	ISV for full AP Automation	Native Workflow

PROMOTION

Bridge to the Cloud 2 (BTTC2)

2/1/23 – 12/31/24

Bridge to the Cloud Promotion

Retention Policy Default 2 Year Delete (2 years) Expires 3/19/2025

Thank you for your interest in the Cloud Migration Assessment. Completing the sign up was the first step in learning more about you and your business. The second step will be to analyze your Dynamics GP on premise solution. To perform the analysis, [login](#) to the Cloud Migration Assessment portal and download the migration assessment executable. In order to run the migration assessment tool, you will need to know the name of your SQL server for Dynamics and a user name and password to run the scripts. If you are not sure of these requirements it would be best to check with your IT department. Watch this [short demo video](#) to learn more about running the tool.
